**Conversation:** Update

~~Davin told Lois to tell Christine to tell me~~ that they would like me to do more updates on the blackberry throughout the day as I am sitting in court.

Yesterday Davin suggested that I send them something every ten minutes.

- 1) Does this seem reasonable to you
  - 2) I don't think I can do my job to the degree of accuracy demanded of me and meet these new requirements
  - 3) I can't listen to highly technical information and write on a blackberry at the same time
  - 4) Who else in the newsroom is set to an all day assignment for three months, writes 40 inches of copy every day and told that's not enough?
-
